

Oil Rotary vane vacuum pump

Rated speed
20 m³/h

Product description

Item:	Vacuum pump
Model:	SV-020
Free Air Displacement:	20 m ³ /h
Ultimate Vacuum::	80PA
Rotating/Speed:	2800 rpm
Power(kW):	0.75 kW (Single/Three-Phase)
Oil Capacity(L):	0.5 L
Dimension(mm):	410*280*210 mm
Weight(Kg):	18 Kg

DETAILS

Advantages:

1. Environmental protection function, built-in oil mist filter, clean and pollution-free exhaust
2. motor and pump coaxial direct transmission, light and small
3. Air cooling, no need of cold water, simple operation, easy maintenance
4. The air inlet is equipped with a check valve, which can prevent the pump oil from entering the vacuum system
5. small vibration, low noise, water discharge plane can be operated
6. in the limit of vacuum to atmospheric pressure range of sustainable operation

Applications:

Vacuum packaging, drying, distillation, concentration, loading and unloading, suction, blow molding and other fields.
